

## Beacon Vets Stock Control

Here I have entered Legitimate account Details into the user-name And password field. This Account is not an Administrator account Because the EmployeeID Is 2.

The First step to this test is to sign in on a non administrator account. Here we can see that I am currently on the log-in interface.

Username: MLing2

Password: ●●●●●●●●

Sign In

I Signed into the Account by clicking On the sign in button. Because the log-in Details were valid, I was taken to the Creating order Interface.
